The **revolutionary payment method** for gaming arcades and casino's

Tested and licensed by: **GLI**

REAC and Cash Support have put their hands together in order to offer a complete cashless gaming solution for gaming arcades and casinos. The CTM-ONE and CTM-TC / CD greatly unburden cashiers at arcades and casinos from task such as money exchange, paying out winnings, issuing/loading and taking receipt of RFID cards, and other routine tasks. Players just insert money into one of the kiosks, receive their loaded magicPAY card and proceed to their chosen machine. If they wish to leave the gaming arcade, they return the card to one of the kiosks, receive their deposit and the balance on the card in cash and can leave the casino without having to queue at the cash desk.

REAC MagicPAY The fast track to gaming!
